

SONONDO

SONONDO_Biography

Meet "SONONDO," the Vienna based electronic live music duo, crafting deep, rich and immersive soundscapes combined with a beat-driven fusion of analog and acoustic elements.

Comprising Andreas Weisz (*1985 in Vienna) and Lukas Poellauer (*1995 in Vöcklabruck), SONONDO has become synonymous with a genre-defying approach that seamlessly blends the analog and acoustic world with cutting-edge music production. In their creative process, Lukas and Andreas, both experienced producers and DJ's, start a track by jamming together and later on leverage their individual studios, utilizing a wide variety of tools to craft their distinctive sound, best described as Deep Organic Melodic House. They infuse their compositions with a captivating blend of analog synthesizers, drum machines, live percussion and appearances of different guest musicians and singers in the studio and on stage, creating a memorable live experience.

Released on "Luv Lite Recordings" the duo's debut release, "What's Happening," featuring the soulful vocals of female Austrian singer Aunty, is a testament to their vision of music.

Keep an ear out for SONONDO as they continue to create an auditory journey that resonates deeply with listeners.
